CALENDULA (MARIGOLD)

Calendula officinalis

Calendula extract is obtained from Marigolds, a familiar but beautiful plant with bright orange-yellow flowers. A native of Southern Europe, it has been grown as a garden flower and healing herb for a long time. It is particularly beneficial to wound healing and for soothing skin conditions.

Calendula contributes to the Dr.Hauschka Skin Care Range by helping to calm irritated and inflamed skin.

ANTHYLLIS (KIDNEY VETCH)

Anthyllis vulneraria

The healing properties of Anthyllis have been known since the 16th century. This medicinal plant aids the skin in its renewal and regeneration process.

Anthyllis is a key ingredient in Dr.Hauschka Skin Care and is used in many of the face care and decorative cosmetic products.

INGREDIENTS
