Nature's Treasures Transformed for You

## The unique features of Dr.Hauschka cosmetics

For more than 40 years Dr.Hauschka Skin Care products – now sold in over 40 countries worldwide – have delighted men and women alike. The range is formulated on the basis of a fundamental philosophy: that the skin possesses its own powers of harmony and regeneration and that skin care products should support these functions. By addressing the skin as a holistic organ and stimulating its natural functions, Dr.Hauschka cosmetics encourage the skin to overcome imbalances and return to its normal state.

### The Dr.Hauschka Range:

- is free from synthetic fragrances, colours and preservatives
- carries the BDIH seal Certified Natural Cosmetic

## Rose Day Cream Light

soothes and protects

Dr.Hauschka Rose Day Cream Light is like a poem of fragrant Roses. The many harmonising, revitalising qualities of the Rose are combined in this new lightweight day cream for dry and sensitive skin.

**The result:** a refined and balanced complexion.

## Rose Day Cream Light – like a poem of fragrant Roses

- █ The revitalising composition of Rose distillate, Rose essential oil, Rose wax, rhythmised extracts of Rose petals and Rose Hips stabilises the skin's natural rhythms.
- █ Avocado and Marsh Mallow root join Sesame, Almond and Wheat Germ oils to restore moisture.
- █ The balancing properties of Anthyllis calm red, irritated skin.
- █ Rose wax and Beeswax protect against unhealthy environmental condition.

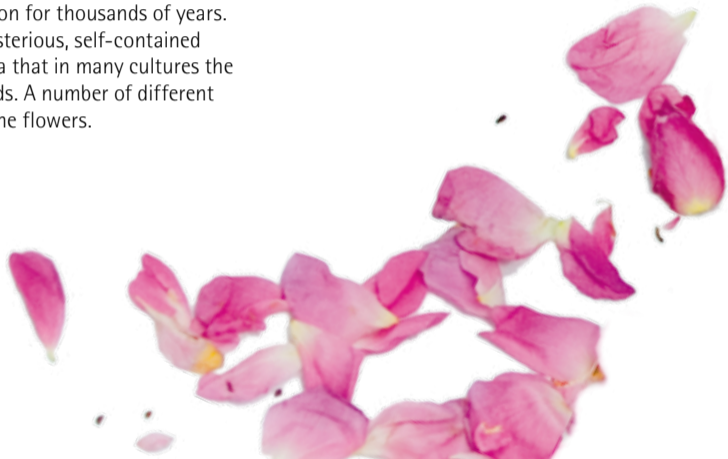

The butterfly, in love with the rose,  
Flutters round it many thousand times,  
But golden soft round the butterfly itself,  
Flutters the sunbeam lovingly.

Heinrich Heine

## The Facets of the Rose – Rosa spp.

The Rose – a symbol of wisdom, purity, love, beauty and grace – has been mankind's companion for thousands of years. Originating from the Orient, this mysterious, self-contained being has such a transcendental aura that in many cultures the Rose was revered as a gift of the gods. A number of different components can be obtained from the flowers.

**Rose essential oil** is obtained by steam distillation. Depending on the quality of the flowers, 3-5 tonnes of flowers are needed to produce just 1 kilogram of Rose essential oil.

**Rose wax** forms a paper-thin coating on the Rose petals. It protects the skin without clogging the pores.

**Rose water** is created during steam distillation of the Rose flowers. It soothes the skin and provides it with fragrant moisture.

**Rose flower extract** is obtained by prolonged storage of dried Rose flowers with Almond oil at 37 °C. The filtered extract is moisturising and hydrating.

**Rose hip extract** is a product of the fruits of the Rose, the Rose hips, and is obtained by extraction with water. The extract vitalises the skin.

## Our day care recommendations

	Product	When	Effect
<b>Cleansing</b>	Cleansing Cream	every day in the morning and evening	deep cleansing, gentle exfoliant
	Cleansing Milk	every day in the morning and evening	gentle cleanser and make-up remover
<b>Toning</b>	Facial Toner	in the morning and evening after cleansing	balances the cleansing process
<b>Day Care</b>	Rose Day Cream Light	day care only, after cleansing and toning	soothes, protects and hydrates
	Eye Contour Day Balm	in the morning after cleansing and toning	protects and refines
	Rejuvenating Mask	once a week as intensive care	conditions, tones and balances

**Tip:** Sometimes skin needs extra care, especially in the cold winter months. To give your skin additional support and protection, try the rich, nourishing Dr.Hauschka Rose Day Cream.
